

UTT10Q Structural Attachment Structure -attachment Fitting

Function: Designed for bracing pipe against sway and seismic disturbance. The pipe attachment component of a sway brace system used in conjunction with a UTT Manufacturing structural attachment fitting, and joined together with a bracing pipe element forms a complete sway brace assembly. Sway brace assemblies are intended to be installed in accordance with NFPA13 and the manufacturer's installation instructions.

Type: Sprinkler Pipe Sch 10, Sch 40, GB/T3091, IS G3454

Size: One size fits braced pipe up to 8" with 1/2" bolt hole for structure.

Material: Carbon steel & Ductile iron OT450

Finish: Electro-galvanized

Approvals:
